

Aromatherapy Diffuser + Oils Quick Start

A quick setup guide for using the Alpha aromatherapy diffuser with PHATOIL essential oils.

Quick Start

- 1 Place the diffuser on a stable, flat, dry surface away from edges, electronics, and loose fabric.
- 2 Check the power cable, connector, tank, cover, and mist outlet before filling.
- 3 Fill only to the guide line. Do not overfill the water tank.
- 4 Add essential oil only as directed on the oil label and diffuser instructions.
- 5 Replace the cover, switch on, then empty, clean, and dry the tank after use.

Care + Safety

- Use in a well ventilated room.
- Keep oils and the device out of easy reach of children and pets.
- If pregnant, sensitive to fragrance, or unsure about essential oils, seek advice before use.
- Stop if the aroma feels uncomfortable.

Important

Essential oils are for fragrance use as directed. Avoid medical, treatment, or guaranteed wellness claims.
